EXPERIENCE

Blue Origin - Kent Headquarters

Production control specialist May 2019-November 2020

- Worked with Tableau Software, SQL, HTML, CSS, and Javascript to create custom queries, dashboards, and reports for management and peers.
- Used Microsoft suite of tools to create applications to streamline data entry and data manipulation.
- Worked closely with Planning, Engineering, Scheduling, Quality, and the Production Floor to change, create, delete, and facilitate, improve and maintain part flow and customer satisfaction.

Cadence Aerospace - Giddens Division

Manufacturing Planner Apr 2018-May 2019

- Worked with Epicor Vantage Software to administer Part and planning data.
- Created custom database connections from Enovia and Catia data to integrate into Epicor using SQL and Visual Studio.
- Used Microsoft suite of tools to create applications to streamline data entry and data manipulation.
- Worked closely with Production Control, Scheduling, Quality, and Program Management teams to change, create, delete, and facilitate the desires of the manufacturing process to improve and maintain part flow and customer satisfaction.

Jamco America

ERP Data Administrator Nov 2017-Mar 2018(contract position)

- Worked with Epicor E9 Software to administer Part and planning data.
- Administered Data migration from legacy DOS based system into Enovia for Boeing proprietary information and systems using custom programming via Visual Studio.
- Used Microsoft suite of tools to create applications to streamline data entry and data manipulation.
- Checked and revised Methods of Manufacturing(MOMs) for Wire Shop, Aircraft Mod, Seats and Lav/Galley installations and assemblies.

Global Machine Works

Drafter / Planner Jan 2017-Mar 2017(contract position)

- Used Solidworks 2015 and Catia V5 to translate parts and products into solidworks to produce check sketches for the shop floor.
- Developed custom VBA macros to automate tasks in CATIA V5

Dan Armstrong Inc.

CNC Shop Manager / Designer / Drafter Aug 2015-Aug 2016(layoff)

- Used Rhino 5, Rhino CAM, and SolidWorks 2015 on a regular basis in daily activities.
- Designed, drafted, and milled custom guitar bodies and necks from various materials.
- Ran and maintained 3Axis milling equipment as well as maintained full wood shop of tools and equipment(saws, buffers, grinders, routers, planers, jointers, etc...)

Accra Manufacturing Inc

Manufacturing Planner July 2014-March 2015(layoff)

- Created maintained and managed multi user relational databases.
- Managed data manipulation, entry and integrity of all Enovia based information.
- Leveraged my knowledge of Microsoft office, Visual Basic, Catia, and SolidWorks(3d modeling) to create a cohesive intelligent solution to tackle the unique challenges faced by a fast past manufacturing environment.
- Created comprehensive repair plans for mechanics to re-machine, re-assemble, and repackage damaged or improperly machined parts.

Boeing Commercial Airplanes

787 Manufacturing Planner March 2008-June 2013(layoff)

- Created maintained and managed multi user relational databases to facilitate the work flow of my groups factory

JEREMY D WALKER

425-583-5506 jeremyitprof@gmail.com

position.

- Performed Manufacturing Engineering responsibilities in ENOVIA, Velocity, CATIA, DELMIA environment
- Created custom data mining programs to interface with ENOVIA to better facilitate Manufacturing Planning and Repairs and provide more accurate data for management to better direct workflow within the shop and across the shifts. Resulted in an 80% reduction in response time for emergent work on the assembly line.
- Supported 787 Final Assembly (FAD), Traveled work, Electrical Planning(wire shop), and MRSA Planning
- Developed & revised installation plans for major aircraft structural, systems & details from baseline engineering as well as Change Notice (CN) & Engineering Quick Change (EQC's)
- Given dispositions from Liaison Engineer when troubleshooting was necessary on airplane, then create electronic plan for mechanics to fix, including Bill of Materials and labor estimates
- Developed and executed business plans, policies and procedures and developed organizational and technical strategies
- Developed & implemented process improvements
- Focal for group training
- Developed and maintained relationships and partnerships with customers, stakeholders, peers, and partners.
- Lead special projects with the Lean program, Moonshine Shop, FAD, and Shim Shop.

Boeing Commercial Airplanes

787 MT FAD: 2006-2008

- Participated in the production of relational databases to address information sharing issues among different departments from manufacturing to engineering.
- Completed 148 hours of familiarization training for the 787 program.
- Held 52 certifications from sealant application to electrical installation.
- Participated in all aspects of assembly and construction of the 787. Worked the Wings, Fore and Aft Join, and Traveled work over the entire plane.
- Worked closely with the MEs and IEs to help revise SOIs and rework work instructions so that they were easier to perform for the mechanics.
- Headed up special projects with the Lean program, Moonshine Shop, FAD, and Shim Shop.

LCCD

1994 - 2006: Owner

- Owned and operated computer drafting and website design company.
- Acquired resources, provided technical management of suppliers and lead process improvements.
- Created custom database application for keeping track of clients, projects, suppliers, and billing.
- Worked various social projects that required take off plans that listing materials, labor, etc, using to assemble bidding package for contractors
- Managed a pool of drafters assigning work and projects.
- Managed employees performing activities in multiple manufacturing disciplines.
- Developed and maintained relationships and partnerships with customers, stakeholders, peers, partners and direct reports.
- Provided oversight and approval of technical approaches, products and processes.
- Managed, developed and motivated employees.
- Clients included all engineering disciplines(Everett Engineering, North West Composites, XP Modifications, EK Coaches, RL Mcduffy, Perteet Engineering, Marine Hardware, US Marine to name a few)

EDUCATION

6/1993 - 6/1995 - Everett Community College transfer credits pursued no specialization.

JEREMY D WALKER

425-583-5506 jeremyitprof@gmail.com

3/1/20 - 11/1/21 - Currently enrolled in CodeInstitutes Full Stack Programming curriculum. Will complete by November of 2021.

3/01/08 - Present: Up to date with all of the latest Dassault Technologies.

Well trained in Catia, Enovia, Delmia, Velocity.

01/01/1994 - 01/01/1995: Everett Community College (2 yr), Everett, WA

Major: Studied general subjects for transfer to a four year college.

SKILLS

Computer skills: Catia, Delmia, Enovia, Velocity, IVT, Epicor E9 and Vantage, Database design in a Microsoft Office environment, Access, Excel, Word, Power Point, AutoCAD, Maya, Rhino3D, Microsoft Windows, Networks, Dreamweaver, Flash.
